

Activity Lab 6-6

The Customary System

Match the given example with the appropriate unit of measure.
Each unit of measure may be used more than once.

1. Unit of Weight

- | | |
|---------------|--------|
| bag of apples | ounces |
| baseball | pounds |
| pencil | tons |

2. Unit of Capacity

- | | |
|-------------------|--------------|
| bathtub | cups |
| coffee cup | fluid ounces |
| container of milk | quarts |
| water bottle | pints |
| | gallons |

3. Unit of Length

- | | |
|-----------------------------------|--------|
| distance across your state | feet |
| distance you can throw a baseball | inches |
| your arm | yards |
| your height | miles |

Fill in each blank with an object that will make the sentence true. The first one has been done for you.

- | | |
|------------------------------|---------------------------|
| 4. a carrot _____ < 8 ounces | 5. _____ > 10 pounds |
| 6. _____ < 2 tons | 7. _____ > 4 fluid ounces |
| 8. _____ < 3 cups | 9. _____ > 8 pints |
| 10. _____ < 3 gallons | 11. _____ > 2 quarts |
| 12. _____ < 3 inches | 13. _____ > 5 feet |
| 14. _____ > 8 miles | |
